

Construction in Germany

Growth in sight

+3% expected turnover 2016
> 100 bn EUR

Insolvencies remain at a high level

Insolvencies are expected to drop slightly by 2% – still 16.5% of total number of insolvencies

Opportunities: immigration and urbanization

urban population rate (10%) + net migration (+900,000) → high demand for housing and renovation

Turnover forecast 2016

Growth driver Housing construction	+5%
Public Construction	+4%
Commercial Con.	±0%

3 Risks that might threaten growth

Widening gap

House prices are rising three times as fast as disposable income

Considerable margin pressure

Margins stuck at around 6.5%, making it difficult to shore up financial solidity

Increase in interest rates

Not expected to rise in the near term but in case of an increase, it would dampen momentum
