Area contribution : After intra-region eliminations & before inter-region eliminations

(1) At constant exchange rates and pro forma (Mexico, Chile and Colombia in 2013 in EH Reinsurance)

(2) Corporate entities + inter-region eliminations

In H1 2014, Euler Hermes' turnover growth is softening. It is up 1.3% compared to H1 2013, to €1,268.6 million.

Foreign exchange headwinds weight negatively on topline growth. At constant exchange rates turnover growth is 2.2%.

Premiums are up 1.9% and 2.7% at constant exchange rates. Good commercial performance in growing markets, new products and a customer retention that remains at 90% are the drivers of growth. They compensate for stronger competitive pressure in mature markets; slightly negative rates, under pressure due to the high profitability of the portfolio as well as volume variation which remains overall flat.

<i>In € millior.</i>	<i>Turnover</i>	H1 2014	H1 2013 published	Variation %	H1 2013 (1)	Variation % (1)
	Earned Premiums	1,064.0	1,044.6	1.9%	1,036.5	2.7%

	Turnover	1,268.6	1,252.7	1.3%	1,241.6	2.2%

(1) At constant exchange rates

Service revenues amount €204.6 million, below last year by 0.2% at constant scope and foreign exchange rates, penalizing turnover growth. The shortfall in service revenues is linked to declining collection revenues following the lower number of claims.

Earned premiums

<i>In € millior.</i>	H1 2014	H1 2013	Variation %
Gross earned premiums	1,064.0	1,044.6	1.9%
Ceded premiums	-320.5	-323.4	-0.9%
Net earned premiums	743.5	721.2	3.1%
Cession rate	30.1%	31.0%	

While gross earned premiums increase by 1.9% compared to last year, net earned premiums rise by 3.1%, reflecting the decrease in premiums ceded to reinsurers on the quota share treaty and cheaper non-proportional reinsurance.

Claims costs

<i>In € million</i>	H1 2014	H1 2013	Variation %
Gross claims costs current attachment year	-626.4	-610.4	2.6%
Gross claims costs previous attachment years	132.9	100.2	32.5%
Total gross claims costs	-493.6	-510.2	-3.3%
Ceded claims costs	145.6	131.5	10.7%
Total net claims costs	-347.9	-378.6	-8.1%

	H1 2014	H1 2013
Net claims ratio, current attachment year	-63.3%	-63.1%
Net claims ratio, previous attachment years	16.5%	10.6%
Net claims ratio	-46.8%	-52.5%

Gross claims costs current attachment year are at €626.4 million, higher by 2.6% (€16.0 million) compared to the first half of 2013, in line with topline growth. The gross claims ratio current year is stable at 59%. The net claims ratio on the current attachment year remains stable (+0.2 point) between H1 2013 and H1 2014.

Gross claims cost previous attachment years amount to €132.9 million, above last year by 32.5% (€32.7 million). In 2013 the run-offs were negatively impacted by additional reserves on previous attachment years' cases.

Overall the net claims ratio all attachment years is at 46.8%, improving, by 5.7 points compared to last year, mainly driven by the additional run-off.

Technical expenses

<i>In € millior.</i>	H1 2014	H1 2013 <i>published</i>	Variation %	H1 2013 <i>(1)</i>	Variation % <i>(1)</i>
Contract acquisition expenses	228.7	215.0	6.4%	218.0	4.9%
Administration expenses	98.9	107.6	-8.1%	104.6	-5.4%
Other ordinary income and expenses	185.1	176.9	4.6%	176.9	4.6%
Total gross operating expenses	512.7	499.5	2.6%	499.5	2.6%
of which non technical expenses	4.6	3.4	34.7%	3.4	34.7%
Total gross technical expenses	508.1	496.1	2.4%	496.1	2.4%

(1) 2013 pro forma with costs of Mexico, Colombia & Chile reclassified in inward commissions

Increase in gross technical expenses is 2.4%, slightly above the increase in premiums.

Growth in acquisition expenses is driven by higher brokerage fees following strong topline in non-mature markets; and administration expenses are lower than last year mostly thanks to savings.

As a consequence and taking also into account the shortfall in service revenues, the gross technical expense ratio is 28.5%, higher than last year by 0.9 point:

<i>In € million</i>	H1 2014	H1 2013	Variation %
Gross technical expenses	-508.1	-496.1	2.4%
Service revenues	204.6	208.2	-1.7%
Gross technical expenses net of service revenues	-303.5	-288.0	5.4%
Gross earned premiums	1,064.0	1,044.6	1.9%
Commissions received from reinsurers	108.3	115.7	-6.4%
Premiums ceded	-320.5	-323.4	-0.9%
Net technical expenses	-195.3	-172.2	13.4%
Net premiums	743.5	721.2	3.1%
Gross technical expenses ratio	28.5%	27.6%	
Net technical expenses ratio	26.3%	23.9%	

Reinsurance commission is down by €7.4 million between June 2013 and June 2014. Contrary to 2014, 2013 reinsurance commissions included positive run-offs on commissions linked to previous attachment years.

Consequently, the net technical expense ratio is up by 2.4 points.

Net technical result

<i>In € million</i>	H1 2014	H1 2013	Variation %
Net earned premiums	743.5	721.2	3.1%
Net claims costs	-347.9	-378.6	-8.1%
Net technical expenses	-195.3	-172.2	13.4%

Net technical result ⁽¹⁾	195.8	166.9	17.3%
Net combined ratio	73.1%	76.4%	

(1) Net technical result = current operating income before net investment income

At €195.8 million, net technical result is €28.9 million above last year, thanks to sound risk management and higher profit retention.

Net investment income

<i>In € million</i>	H1 2014	H1 2013	Variation %
Revenues from investment property	1.3	1.3	-1.2%
Revenues from equity and debt securities	29.8	32.8	-9.0%

Net gain and loss on sales of investments less impairment and amortisation	12.0	14.2	-15.0%
Net investment income (excluding financing expenses)	48.9	57.3	-14.8%

The net investment income (before financing expenses) amounts to €48.9 million compared to €57.3 million last year.

The current investment income is decreasing by €2.9 million to €41.9 million, linked to lower yields on bonds, partially offset by higher revenues on equities.

Net change in foreign currency also contributes negatively, with a loss of €0.9 million at the end of June 2014, compared to a profit of €2.1 million last year.

Net realized gains are lower by €2.1 million compared to half year 2013, at €12.0 million at June 2014 and mainly come from the bond and stock portfolio.

At end of June 2014, the market value of the Group's investment portfolio increased by €78.4 million compared to end of 2013, to €4,241.8 million, after payment of €186.5 million of dividends in June.

After non ordinary items, financing expenses, share of income from companies accounted by the equity method, and corporate tax, consolidated net income Group share stands at €173.2 million, compared to €166.4 million last year.

Other non-ordinary income and expenses included last year a one-time gain of €31.7 million on the legal contribution of Spanish and Argentinean entities to the Solunion joint-venture with MAPFRE. This exceptional gain is compensated at end of June 2014 by higher contribution from entities valued at equity and a lower tax ratio.

Euler Hermes Group net result

Statutory net income of the entity "Euler Hermes Group" amounts to €214.4 million at 30 June 2014, versus €220.6 million as at 30 June 2013. This result is closely driven by the dividend upstream from the operational entities, main source of revenues of the entity "Euler Hermes Group".

Consolidated shareholders' equity

Consolidated shareholders' equity at 30 June 2014 amounts to €2,490.7 million, compared to €2,528.5 million at 31 December 2013, decreasing by €37.8 million. The main changes during the period are shown below.

The decrease in the Group share consolidated shareholders' equity is due to the positive impacts of:

- the net result generated over the period for €+173.2 million excluding non-controlling interests
- the revaluation of the investment portfolio for €+24.9 million
- the translation differences for €+7.5 million
- other variation for €0.8 million

offset by the negative impacts attributable to:

- the dividends paid for €-184.8 million
- the transfer of realized gains & losses to P&L for €-10.1 million
- the actuarial losses on defined benefits plan for €-40.6 million
- the impact of operations on the treasury shares for €-16.6 million

The share of the non-controlling interests decreases by €-2.1 million.

As at June 30, 2014, the share capital of Euler Hermes consisted of 45,342,177 fully paid-up shares. At the same date the Group holds 1,342,512 treasury shares.

In accordance with IAS 39, available-for-sale (AFS) investments were revaluated at market value with the resulting gain or loss being taken directly to the revaluation reserve with no impact on the consolidated income statement. During the year, the increase in the revaluation reserve totaled €24,890 thousand net of taxes.

The change in translation reserves up to €7,524 thousand during the exercise relates mainly to the British Pound for €6,598 thousand, the US Dollar for an impact of €1 201 thousand, the Brazilian Real for €823 thousand, the Hungarian Forint for €-904 thousand and the Russian Ruble for €-266 thousand.

The variation of the non-controlling interests down to €-2,153 thousand is mainly due to the buyback of non-controlling interests of Euler Hermes Hellas Credit Insurance for an impact of €-2,003 thousand, the net result for the period for €1 553 thousand and the dividend distributions for €-1,723 thousand.

Change of the Company name

Following the Shareholders' Meeting of May, 28 2014, the company name "Euler Hermes S.A." has been changed to "Euler Hermes Group".

Note 2 IFRS accounting and valuation rules

Euler Hermes Group is a company domiciled in France. The Headquarters of Euler Hermes Group are located 1, Place des Saisons 92048 Paris – La Défense Cedex. The consolidated financial statements as at June 30, 2014, include Euler Hermes Group and its subsidiaries (the whole designated as “the Group” and each subsidiary individually as “the entity of the Group”) and the quota-share of the Group in its associated companies or joint ventures.

Euler Hermes Group is registered in RCS with the reference number 552 040 594.

The financial statements of the Euler Hermes group as at June 30, 2014 were approved by the Group Management Board of July 29th, 2014 and presented to the Supervisory Board of July 30, 2014.

2.1. General Principles

In accordance with European regulation no. 1606/2002 of July 19th, 2002, the consolidated financial statements published as at June 30, 2014 were prepared in accordance with IAS 34 as adopted by the European Union. International accounting standards comprise IFRS (International Financial Reporting Standards) and IAS (International Accounting Standards), together with their interpretative texts. These interim financial statements should be read in conjunction with the consolidated financial statements of the group as at December 31st, 2013, prepared in accordance with IFRS standards as adopted by the European Union.

The standards and interpretations applied stem essentially from:

- IAS/IFRS and their interpretative texts whose application is mandatory at June 30, 2014 as adopted by the European Union;
- Guidance provided in CNC recommendation no. 2013-R05 relating to the format of financial statements prepared by insurance firms under international accounting guidelines.

The financial statements are presented in euros, the functional currency, rounded to the nearest thousand. They have been prepared on a historical cost basis except for asset and liability items relating to insurance policies, which are measured in accordance with the methods already applied by the Group and for financial instruments measured at fair value (financial instruments at fair value through the consolidated income statement and available-for sale financial instruments). Non-current assets and groups of assets held with a view to being sold are measured at the lower of carrying amount and fair value less selling costs.

2.2. Changes in the accounting framework applicable to Euler Hermes in 2014

Standards, amendments and interpretations for which application is mandatory in 2014 are the following ones:

- IFRS 10, Consolidated financial statements
- IFRS 11, Joint Arrangements
- IFRS 12, Disclosure of interests in other entities
- IAS 28, Investments in associates and joint ventures

The consolidation standards detailed above (IFRS 10, IFRS 11 and IFRS 12) were published in May 2011 and were adopted by the European Union on December 29, 2012, with mandatory retrospective application from January 1st, 2014 at the latest.

Impact of the first-time application of IFRS 10, Consolidated Financial Statements

IFRS 10 replaces the provisions on consolidated financial statements in IAS 27, Consolidated and Separate Financial Statements, and SIC 12, Consolidation – Special Purpose Entities.

IFRS 10 introduces a new single control model based on three criteria: “An investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee”. Previously, control was defined in IAS 27 as the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

With a view to the first-time application of this standard, the Group undertook an analysis of its investments to determine the level of control exercised over them pursuant to the new definition of control. The procedures performed did not identify any material impact of the first-time application of this standard.

Impact of first-time application of IFRS 11, Joint Arrangements

IFRS 11 replaces IAS 31, Interests in Joint Ventures and SIC 13, Jointly Controlled Entities - Non-Monetary Contributions by Venturers. This new standard deals with how a joint arrangement should be classified when two or more parties have joint control. Pursuant to this new standard, there are only two types of joint arrangement: joint ventures and joint operations. Classification is based on the rights and obligations of the parties to the arrangement, taking into consideration the structure and legal form of the arrangement, the terms agreed by the parties in the contractual arrangement and, when relevant, other facts and circumstances.

A joint venture is a joint arrangement whereby the parties (joint venturers) that have joint control of the arrangement have rights to the net assets of the arrangement.

A joint operation is a joint arrangement whereby the parties (joint operators) have direct rights to the assets and obligations for the liabilities, relating to the arrangement.

Pursuant to IFRS 11, joint arrangements classified as joint ventures must be accounted for using the equity method (proportionate consolidation is no longer authorized). Each joint operator in a joint operation must account for the assets and liabilities (income and expenses) relating to its interest in the joint operation.

Given the changes concerning the forms of joint arrangements and to consolidation methods, the Group undertook a review of its joint arrangements, covering all periods presented. The main arrangements under joint control within the Group qualify as joint ventures pursuant to IFRS 11 and were already equity-accounted in accordance with IFRS 11.

The company NV Interpolis Kredietverzekeringen had been previously analyzed as a joint operation; but pursuant to IFRS11, this company finally qualifies as joint ventures and is equity-accounted from 1st of January 2014. The impacts are not significant at Group level. Consequently, comparative financial statements related to the previous period were not retrospectively restated.

Impact of the first-time application of IFRS 12, Disclosure of Interests in Other Entities

IFRS 12 concerns the disclosure of interests in subsidiaries, joint arrangements, associates and/or unconsolidated structured entities. First-time application of this standard results in the provision of more detailed disclosures in the notes to the financial statements. As part of condensed financial statements as at June 30, 2014, information required by IFRS 12, mainly related to joint ventures, are disclosed in the notes in order to allow an accurate reading of the financial statements.

Impact of first-time application of IAS 28, revised

The first-time application of this revised standard has no impact on the consolidated financial statements of the Group. The amendments to this standard are primarily the result of the new consolidation standards referred to above.

Early application of standards

The Group has not early adopted standards and interpretations that are not yet mandatorily effective at January 1st, 2014.

2.3. Consolidation scope

Euler Hermes has increased from 80.3% to 100% its participation in its consolidated Greek subsidiary Euler Hermes Hellas Credit Insurance SA.

Euler Hermes created the following services entities: Euler Hermes Services Taiwan, Euler Hermes Services G.C.C Ltd in Dubai and Euler Hermes Services Bulgaria which have been consolidated since January 1st 2014.

2.4. Use of estimates

The production of the consolidated financial statements of Euler Hermes is based on estimates for a part of assets and liabilities items. The management is called upon to review these estimates in the event of changes that may alter the basis on which they have been established or due to the consideration of new information or accrued experience.

The table below summarizes the assessment methods of estimates for the main aggregates of the balance sheet:

Estimate		Communicated Information
Note 3	Impairment of goodwill	An impairment of goodwill is recognised when the higher of the Cash Generating Unit's value in use (present value of future cash flows) and fair value less any selling costs is less than its carrying amount (share of net assets and goodwill). The fair value of the Cash Generating Unit's is based on assumptions of capital costs, growth rate to infinity and loss ratio & standard retention rates used in the calculation of the final values.
Note 4	Fair value of real estate held for investments & for use	The fair value of buildings is estimated based on market prices, adjusted, where applicable, to take into account the nature, location or other specific features of the building concerned.
Note not published	Provisions for risks and charges	Provisions for risks and charges are measured in accordance with IAS 37 and are reviewed and adjusted at each balance sheet date to reflect the best estimate at this date.
Note 8	Earned but not recorded premiums reserves	This reserve is established based on the estimate of the amount of premiums expected on the period less the amount of premiums recorded on the period.
Note 8	Provisions for salvages & recoveries	This reserve represents the estimate of potential recoveries on settled claims by a statistical calculation based on the evolution of salvages & recoveries by year of attachment on previous exercises. They take into consideration a provision for administration charges determined in accordance with actual observed expenses.
Note 8	Bonus & profit commission reserve	This reserve is intended to cover the future cost corresponding to premium rebates to be granted to policyholders under the terms of policies giving policyholders a share in their technical positive results.
Note 8	Reserves for claims payable	This reserve corresponds to a statistical estimate of the cost of all outstanding claims, that is to say claims reported but not yet settled.
Note 8	IBNR reserve	IBNR reserves are established to recognize the estimated cost of losses that have occurred but where the Euler Hermes Group has not yet been notified. The Euler Hermes Group relies on its past experience, adjusted for current trends and any other relevant factors to estimate IBNR reserves. IBNR are estimates based on actuarial and statistical projections of the expected cost of ultimate settlement and administration of claims. The analyses are based on facts and circumstances known at the time, predictions of future events, and other economic factors. IBNR reserves are reviewed and revised periodically as additional information becomes available and actual claims are reported.
Note not published	Employee benefits	The related commitments are measured in accordance with IAS 19 Revised and are reviewed yearly by independent actuaries. The commitment is recognized in the balance sheet using the projected unit credit method, based on the group actuarial assumptions.
Note not published	Stock options plans	The fair value of the liabilities resulting from the Allianz and Euler Hermes SAR (Stock Appreciation Rights) and RSU (Restricted Stocks Units) plans is reassessed at each balance sheet date based on the Allianz share price and Euler Hermes share price, until expiry of the obligation. The fair value from SAR and RSU is calculated using the Cox-Ross-Rubinstein binomial valuation model.

Note 3 Goodwill

In accordance with IFRS 3, goodwill is not amortized but is subject to impairment tests which are performed on a systematic annual basis and as soon as there is any indication of loss in value.

Classification by accounting method

For an instrument that is listed on an active market, the fair value is the bid price on the valuation date for an asset held or a liability to be issued and the offer price for an asset intended to be purchased or a liability intended to be held. If such prices are not available, the fair value is estimated based on the most recent transaction price.

If there is not any active market for a given financial instrument, the Group estimates the fair value by using a valuation technique. Valuation techniques include the use of recent transactions under normal competitive conditions between informed and consenting parties, where available, reference to the current fair value of another instrument that is identical in substance, the analysis of discounted cash flows and option valuation models.

Concerning the non-listed investments, the Group estimates the fair value by using a valuation technique. Valuation techniques include the use of recent transactions under normal competitive conditions between informed and consenting parties, where available, reference to the current fair value of another instrument that is identical in substance, the analysis of discounted cash flows and option valuation models. The non-listed investments are mainly German mortgage bonds (*Pfandbriefe*).

Fair value hierarchy

- Available-for-sale assets

The level 1 is mainly composed of listed bonds and stocks on an active market.

The level 2 was composed in 2012 of Allianz 3-year bond for an amount of €160 million reaching maturity during the 2013 year.

The level 3 is mainly composed of participation in non-listed real estate funds, non-consolidated shares and of Moroccan non-listed government bonds.

Distributable net income (in thousand of euros)	173 207	166 372
Weighted average number of ordinary shares after dilution	44 072 733	44 061 203
Diluted earnings per share (in euros)	3,93	3,78

The dilution impact takes into account the exercise of options.

The average number of shares resulting from dilution is 5,326 in 2014 (70,607 in June 2013).

The Net Income Group share is used as the basis for this calculation.

Note 11 Segment data

Segment assets are operating assets that can be directly attributed or reasonably allocated to a given segment. Segment liabilities are liabilities arising from operations that can be directly attributed or reasonably allocated to a given segment.

Segment profit and loss comprises income and expense resulting from operating activities that are directly attributable to a given segment and the relevant portion of income and expense that can reasonably be assigned to the segment, notably income and expense relating to sales to external customers and income and expense relating to transactions with other segments of the same company.

For the Euler Hermes group the primary segment is the geographical segment as it corresponds to the information presented to the Group's management bodies.

Following the change of sector allocation from January, 1st 2014, of a holding company belonging previously to two regions France and America and of a collection services entity belonging to the Americas region, to the Group Services segment, a pro forma segment analysis has been performed.

Statutory Auditors' Review Report on the half-yearly consolidated financial statements

For the six-month period ended 30 June 2014

To the Shareholders,

Following our appointment as statutory auditors by your Shareholders' General Meeting and in accordance with article L.451-1-2 III of the French Monetary and Financial Code ("Code monétaire et financier"), we hereby report to you on:

- the review of the accompanying condensed half-yearly consolidated financial statements of Euler Hermes Group SA for the six-month period ended 30 June, 2014,
- the verification of information contained in the half-yearly management report.

These condensed half-yearly consolidated financial statements are the responsibility of the Group Management Board. Our role is to express a conclusion on these financial statements based on our review.

I. Conclusion on the financial statements

We conducted our review in accordance with professional standards applicable in France. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with professional standards applicable in France and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed half-yearly consolidated financial statements are not prepared in all material respects in accordance with IAS 34 - the standard of the IFRS as adopted by the European Union applicable to interim financial statements.

II. Specific verification

We have also verified information given in the half-yearly management report on the condensed half-yearly consolidated financial statements subject to our review. We have no matters to report as to its fair presentation and consistency with the condensed half-yearly consolidated financial statements.
