

EH SmartLink

Automated and secure exchanges with Euler Hermes for simpler, faster and more accurate credit management

What is EH SmartLink?

EH SmartLink is a service that enables Euler Hermes credit insurance solutions to be integrated into your company's systems and automated processes.

EH SmartLink adapts to fit your company's specific needs.

It is designed for companies that manage hundreds of credit limits as part of their business operations. EH SmartLink complements your credit insurance and makes it easier and faster for your business to receive our support for your credit management activities.

How does EH SmartLink help your business succeed?

EH SmartLink is fast, available anytime and designed to help you to make accurate decisions. The benefits of EH SmartLink are:

Simplicity

Simplify and automate your credit management processes

EH SmartLink enables you to automate the standard requests and interactions you have with Euler Hermes. This saves time as well as manual effort and allows you to focus on growing your business.

Accuracy

Receive important credit information in real time

Once we have new information about one of your buyers or prospects, it is automatically integrated into your credit management system thereby increasing the accuracy of your analysis.

Speed

Provide quicker responses to your customers

EH SmartLink gives you the information you need to immediately react to customer inquiries. This can lead to a valuable advantage, compared to your competitors who may rely on more time-consuming credit management processes.

Pro-active

Manage your company's risks pro-actively

EH SmartLink provides your risk managers with complete transparency and insight about your company's credit risks along with enhanced reporting and alerting capabilities.

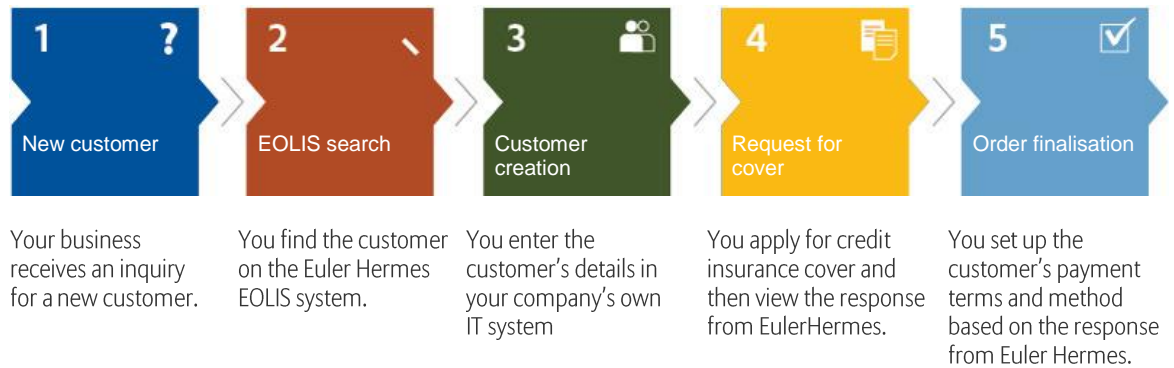

EULER HERMES
Our knowledge serving your success

How does EH SmartLink work?

With EH SmartLink, your business receives real-time information from Euler Hermes directly within your credit management system. It provides your company **automatic access to our knowledge**, which you can use to make important credit decisions about your buyers. By using EH SmartLink, all of your core exchanges with Euler Hermes can be streamlined and managed right from your credit management system. You will noticeably **reduce the time and effort** of manually entering information.

Conventional credit insurance policy operation

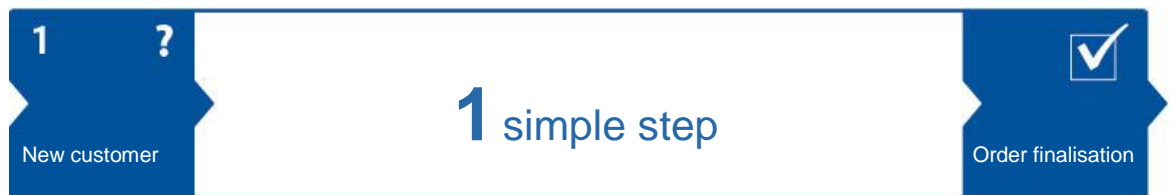

High Security

EH SmartLink uses XML and web service technology to establish a direct and secure link between your IT systems and Euler Hermes.

All of your information is optimally encrypted using Secure Sockets Layer (SSL) technology. Forgery-proof authentication with SmartLink is another guarantee that data exchange only takes place with Euler Hermes.

With EH Smartlink

What is EH SmartLink implementation process?

Implementing EH SmartLink with your company's credit management system is **simple**. It doesn't matter whether your company uses its own proprietary system or one from SAP, Oracle, Microsoft or another provider. We have a well trained, knowledgeable team that can answer your questions and help ensure a **smooth implementation** of the tool.

Once you have EH SmartLink, we will continue to provide ongoing support through a **dedicated Euler Hermes consultant**.

What do users say about EH SmartLink?

"Euler Hermes' SmartLink service gives us a unique perspective on its trading partners. In the context of our competitive landscape and a global economic climate, where the ability to adapt and make smart decisions quickly are critical, EH SmartLink provides us with the information we need to make proactive as well as reactive informed credit risk decisions. Easy to implement, fast, scalable and reliable, EH SmartLink enriches our early risk alert signals system and allows business stakeholders to focus more on value adding analytical tasks rather than reporting tasks."

Antonio Willybiro, GroupM
