

CAP

Product Suite

Extending more credit often goes hand-in-hand with increased risk. That's why Euler Hermes offers CAP, CAP+ and Power CAP—to provide coverage beyond what's available through your existing Euler Hermes policy—so you can make the most of every sales opportunity.

Coverage when it counts

CAP programs are a set of credit insurance products that can be endorsed to your existing Euler Hermes policy, enabling you to purchase additional coverage on credit limits that have been fully or partially declined. Our primary objective is to offer the most coverage under your existing policy, but there are situations where you have a need for coverage on higher risk buyers or those buyers for which limited information is available. These products allow you to make strategic trading decisions while maintaining sound financial management.

How does coverage work?

- Terms of the program mirror your existing Euler Hermes credit insurance policy
- Both domestic and select export markets are covered
- Coverage is available for as few as 3 months, or as long as you need the limit
- Policy deductible is not applied to CAP claims
- Not all buyers are eligible

When to consider CAP

If you need more coverage on a partially approved limit

If you need coverage on a declined limit

If you currently have A/R exposure above your approved limit

If you have peak season, one-off, or special sales opportunities
